

In looking for a Catholic grade school and discovering Aquinas Academy, we have found that it has exceeded our expectations! The spirit that pervades the school is truly that of Christ, in service to the whole child with his/her unique qualities. The faculty and staff have helped our child by their genuine acceptance of, and care for, our daughter's happiness. They have supported her and challenged her, when needed, with a great tenderness. They are aware of the good in her and acknowledge it.

At Aquinas I know with certainty that the teachers and staff are regularly praying for each child as well as for the families. The teachers and staff have been appreciative of our prayers for them as well.

Many a time, in the encounter with the faces of the staff, parents and children (at drop-off and pick-up and at other times) I have been reminded of the Truth of myself and of my daughter and what we are made for-the friendship with Christ. I am thankful for this "family" at AA because it has helped renew and deepen my appreciation of my own family, and continues to help me in becoming a better person, more open to living the circumstances that are given me each day.

With great gratitude,

An Aquinas Academy Parent
